

I am commenting regarding the expansion of LPFM stations. I feel it would very much hurt our community as well as thousands others as we listen to an FM translator station 90.1. It is one of the very few stations that you won't find bad language on and teaches morals to my kids. In these troubled times, it is important to have a resource like this for our children. I feel it will negatively impact our area as there are so many listeners relying on this station. I believe the services provided by Air 1 (90.1)fm go beyond just listening to music and entertainment. They really help young people during their confusing teen years by giving examples of other young people who have had tough times and made it through with God's help. Good moral entertainment is in very short supply these days...please don't take this one very important resource away from us. It would be devastating. Thank you for your time.

Sincerely, Mrs. Peggy Sue Lansing
